PROFESSIONAL SUMMARY

Data Analyst with hands-on experience in **SQL, Excel, Power BI, and Power Query**. Skilled in **data cleaning, data modeling, ETL processes, and KPI dashboard development** to transform raw data into **actionable business insights**. Proven ability to perform **Exploratory Data Analysis (EDA)** to identify trends and improve business performance. Seeking an entry-level Data Analyst opportunity in a professional organization.

TECHNICAL SKILLS

- Databases & Query Languages:** MySQL, SQL
- Data Visualization & Reporting:** Microsoft Power BI (Desktop & Service), DAX (Data Analysis Expression) Microsoft Excel (Pivots Tables, VLOOKUP, XLOOKUP, SUMIF, COUNTIF, Conditional Formatting), KPI Dashboard Development
- Data Processing & Modeling:** Microsoft Power Query, ETL Processes, Data Modeling, Star Schema
- Analytical Techniques:** Data Cleaning, Data Validation, Exploratory Data Analysis (EDA), Trend Analysis

PROJECTS

Telco Customer Churn Analysis | *Independent Project* | [GitHub](#) Dec 2025 – Jan 2026

Tech Stack: SQL (MySQL), Power BI, Power Query, Microsoft Excel

- Analyzed **7,043 customer records** using **MySQL** and **Power Query** to perform data cleaning and EDA—identifying a **26.5% churn rate** and **\$3M in lost revenue**.
- Designed a **Star Schema data model** with fact and dimension tables to structure the dataset for efficient querying and reporting.
- Developed an interactive reporting dashboard in **Power BI** to visualize churn drivers, including **month-to-month contracts (42.7%)** and **electronic check payments (45.3%)**.

Superstore Sales Performance Analysis | *Independent Project* | [GitHub](#) Nov 2025 – Dec 2025

Tech Stack: SQL (MySQL), Power BI, Power Query, Microsoft Excel

- Examined **9,994 retail orders across 4 years** to perform data preprocessing and sales performance analysis — uncovering **\$2.3M in revenue** and **\$286K in profit**.
- Performed discount impact and return rate analysis to identify **\$213K in avoidable losses** driven by over-discounting and high return rates.
- Created an interactive **Power BI** reporting dashboard to uncover sales trends, regional performance, and category-level insights for business decision-making.

CERTIFICATIONS

- Deloitte Australia Data Analytics Job Simulation — Forage Jan 2026
- Certificate Course on Data Analytics — Infosys Foundation & ICT Academy Aug 2024 – Sep 2024

EDUCATION

B.Tech in Information Technology | **CGPA: 7.71 / 10** NOV 2021 – SEP 2025
